

How to configure Windows Firewall settings to use PRO DJ LINK

To use rekordbox PRO DJ LINK (LINK EXPORT) on Windows, allow the following four apps in Firewall.

edb_streamd

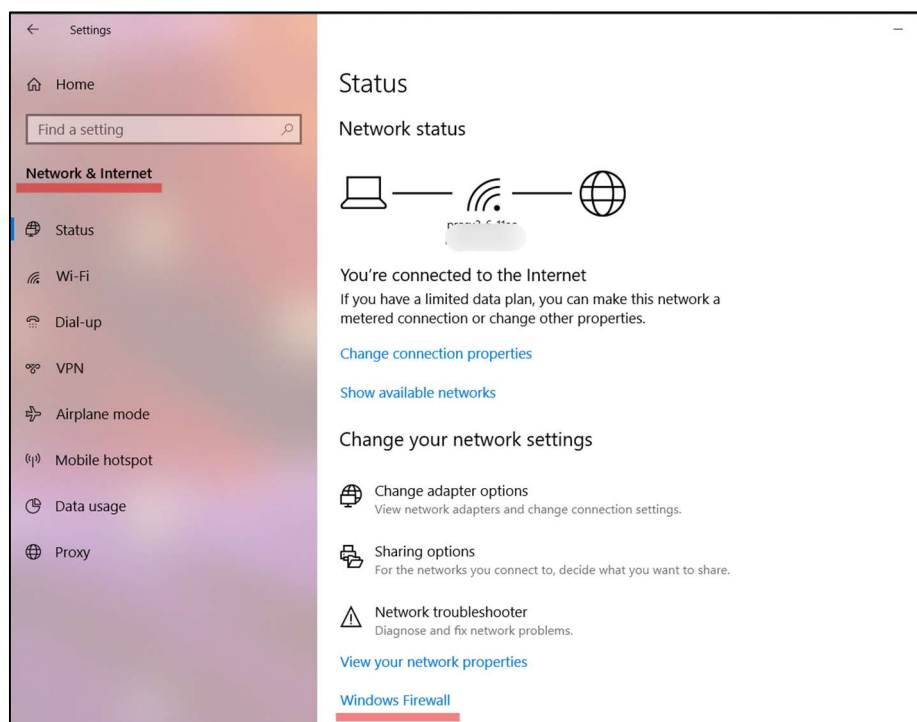

ProDJ Link NFS Server

ProDJ Link System Manager

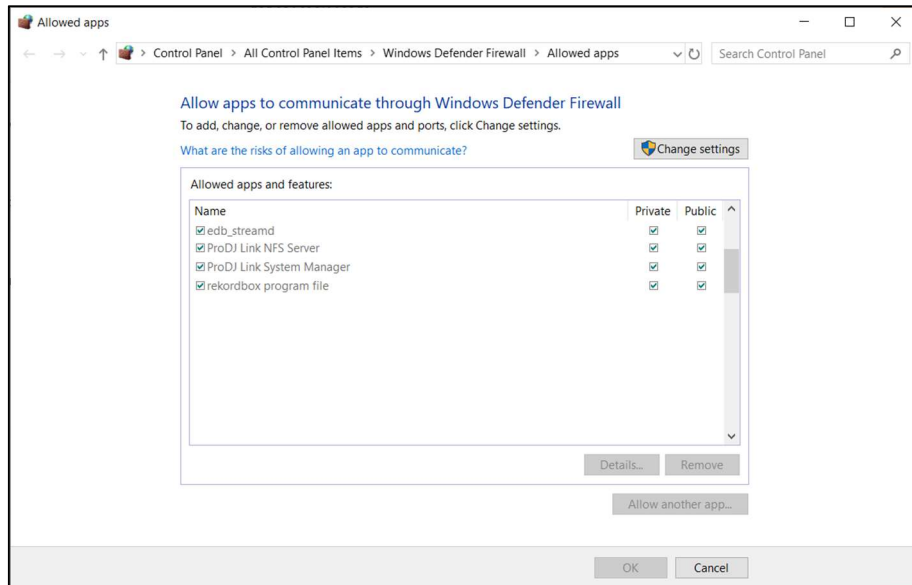

rekordbox program file

1 Open [Allows apps to communicate through Windows Firewall].

Select [Network & Internet] in [Settings]

Click [Windows Firewall] > [Allow an app or feature through Windows Firewall].

2 Allow apps to communicate through Windows Firewall.

Check the four apps below under [Allowed apps and features]

edb_streamd

ProDJ Link NFS Server

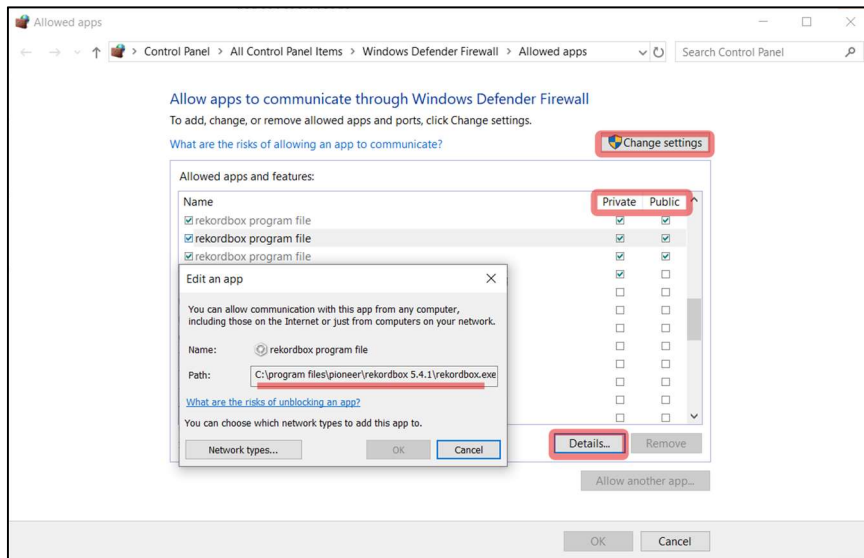

ProDJ Link System Manager

rekordbox program file

- Check [Change settings] and both [Private] and [Public] to allow.
- If there are multiple apps with the same name, click [Details] and check [Path].

¥pioneer¥rekordbox x.x.x (x.x.x: version number)

Allow the version of the app you want to use.

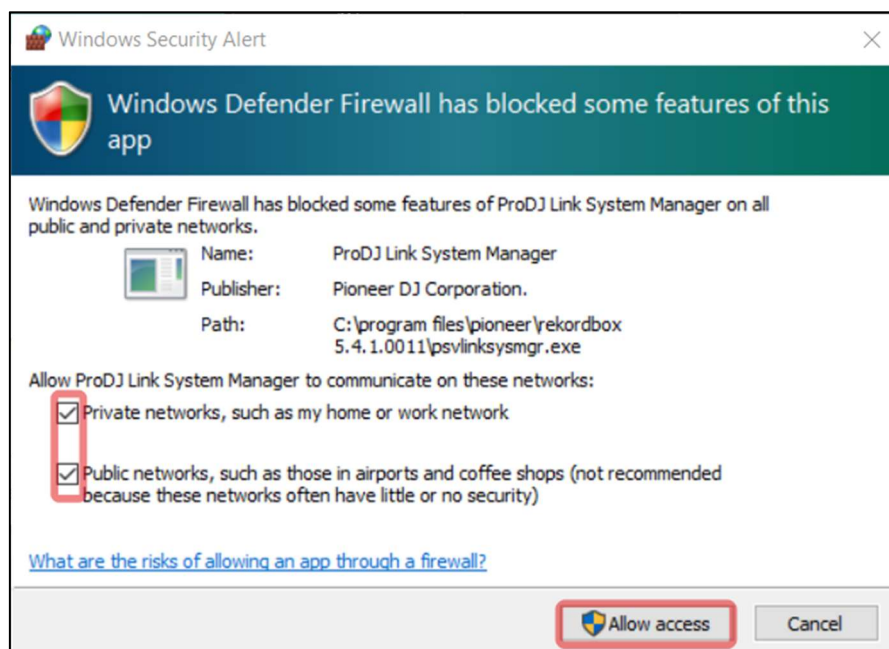

3 Click OK to close the window.

- When there is no app in [Allowed apps and features]

Restart rekordbox. [Windows Security Alert] appears.

Check all the checkboxes and click [Allow access].
