# Important notice for Mac users

To use rekordbox properly, please click [OK] when the following messages are displayed.

*In addition to the Downloads folder, it may be the Documents folder, Desktop folder, Dropbox, etc.

If you click [Don't Allow] or have any of the following symptoms, follow the "Procedure" to set up your OS.

- After updating the OS, music files displayed in the track list cannot be played.
- After updating the OS, certain folders and music files are no longer displayed in [Explorer] of the Tree View.
- USB memory, external HDD/SSD, etc. are not displayed in [Device] in the Tree View.
- After updating the Dropbox desktop app to the latest version, I got an account error and couldn't upload tracks.

"Procedure"

Step1. Select [System Preferences] > [Security & Privacy] to open the Security and Privacy settings screen.

Step2. In the [Privacy] tab, select [Full Disk Access] and check [rekordbox].

   * If it is grayed out and cannot be changed, click the lock icon in the lower right.
